

exposé on yhstwt and dee's frankly problematic server

we all know and hate the yhs fanclub. this is a fact. it's run like the navy and they treat you horifically. there's no free speech and comedy is banned.

ex. one

mods abusing their powers yet again. they allowed skibidi phone but not hawk tuah? this is hell on earth.

that's not the only problematic thing someone in this screenshot has done however

JAE
