

SUBSTITUTE LESSON PLAN-- Wednesday APR 1, 2026

Lava Ridge Intermediate School

Welcome! Thank you for being here. Since it is Wednesday you will follow the schedule below. Please take attendance for each period according to the directions given by the office or provided in your substitute packet. If there are any disruptive students, please send them directly to the office and let me know.

Regular Day M-TH 2025-26

6th Grade Schedule

Periods	1 st Lunch	Specifics of each Class Period
Advisory	7:45-8:20	35 minutes (30 min. Advisory + 5 minutes for announcements)

5 th Period	12:19 -1:08	49 minute class period
6 th Period	1:11 – 2:00	49 minute class period

I teach science 1, 2, 4, and 6th periods and Learning Strategies 5th. 3rd period I have prep. Ask Lorena in C-1 or Kamille in C-3 if you need help or have any questions.

As soon as you get here log into the computer and follow the directions below to access the information you'll need for today. The tower is behind the right screen close to the wall. Go around to the front of the desk to turn it on.

Sometimes there is difficulty logging into the school computer. Please get help immediately if the directions in the sub packet are not working for you. You will need the computer and projector for today's lesson!

- 1. Go to fishelfun.blogspot.com and open the slideshow for today.**
- 2. Move the slideshow to the monitor on the right by clicking the tab and dragging it over. That monitor will be mirrored on the board by the projector.**
- 3. Open another tab. Click on the Gmail button to open the substitute email. You will receive a link there from Dan Roberts for the daily live news feed. Sometimes it doesn't post until about 7:45, so if you don't see it check back. You will slide it over to the right monitor to project.**
- 4. Open another tab. Click on the nine dots to open the app menu. Select Drive. Then search for the Advisory 25-26 document. Slide it to the right monitor and scroll down until you see Fishel, Angela listed on the left. Any students listed there have been requested to go to another class and work during advisory and should leave as soon as the news broadcast ends.**
- 5. Open another tab and follow the directions in the sub folder to open PowerSchool.**

Advisory Class

1. Advisory will start with the pledge of allegiance at 7:45 over the intercom.
2. Following the pledge you will view the school news using the live video feed.
3. When the news ends, send any requested students out.
4. All other students will work on homework or read.

Science Classes: Activity 1: Bunnies Take Over the World! Pg 3-5

1. What is the objective of today's lesson? Students will be completing an assignment in their packet to learn about invasive species.

2. What is the Warm-up activity? They will log into their Chromebook and investigate a bunny population using a Phet simulation for 5 minutes. Start the timer right after the bell and then take roll please so they have time for the main lesson.

3. What assignments are the students expected to work on?

The slide show takes you step by step through Activity 1 in their new packet. If they don't have the new packet that was handed out yesterday I left a pile on my desk.

Each slide has directions and tells what they are expected to do. Please walk around the room during work time. They should finish their CER paragraph before logging back in and completing the simulation activity on page 4.

My packet is in the blue folder so you have an example .

Learning Strategies Class: 5th Period

4. What will students be expected to do? This is a study hall class for students that need additional time and help with some assignments. They should have work to complete (usually math) and you can assist them as needed. Any students that say they are all caught up should be directed to read.

5. If students finish early, what are they supposed to work on? Read

6. If the substitute teacher has a question, which nearby teacher and/or student can help? Text me at 435-669-1277

7. What should the sub do about disruptors? ANY ISSUES: Send them to the office.

Text me if there is anything you need! 435-669-1277. Thank you very much for covering for me! Please leave me a note about how it went.
