

****This is for Fairy Vial use only. If you want to use the format for another species or character, please ask ViPOP first.**

Instructions:

1. **Create your own fairytale!** This template is for developing your Fairy Vial's history, life adventures, and characteristics! Go to File → Make a Copy to make your own!
2. We will be primarily using Toyhouse to record our Fairy Vial's background! Please copy this template to your Toyhouse! It can be reformatted as you wish!
3. No Toyhouse? No worries! Ask for a Toyhouse invitation OR Tag @LunarInfinity to make a Toyhouse page for your character on our Fairy Vial Toyhouse Page!! We will hyperlink a copy of this google document which you can edit in their description!!
4. The website has as much information as I could include, but as always, ASK if you need more information!
5. Throughout this document, I will be using Ami as an example. Here's her Toyhouse for anyone unfamiliar with her: <https://toyhou.se/3623602.ami>
6. Examples: [Evonne](#), [Alicorn](#), [Delaney](#), [Nymphaea](#), [Soleil](#),

Awakening info: [Biology | fairyvials](#)

Food for thought:

- Was your Fairy Vial awakened by a magical creature, another Fairy Vial, a human? The Fairymaker? Stardust Mimosa? Etc? Did they awaken alone (perhaps something just crawled or fell into their vial)?
- Where were they awakened? Fairy Realm? Human Realm? In the middle of the forest? In the ocean?
- Why were they awakened? Did someone request the Fairymaker to create them? Did the Fairymaker just lose the vial sometime in his travels? Is it known?
- Fairy Vials can awaken at any age, though most awaken relatively young. Did they live with anyone in their childhood? Maybe a special house? Maybe adopted by the Three tiered Bridal Vial Islands? (see Biology - Awakening information).

◆ STORY ARCS ◆

Discuss any important things that happened in your Fairy Vial's life. Anything from their awakening to big moves to settling down in a town, etc!! Fairy Realm info: [Asterian Realms and Towns](#)

Food for thought:

- Post-awakening, what aspirations did your Fairy Vial develop? Did they decide to live in a specific town? Travel Asteria? Search for a mentor to develop specific skills? Start a shop/store?
- Did they meet anyone along the way who helped them? A friend? A foe? Perhaps a NPC? Or maybe someone who gave them an opportunity to create something / pursue their dreams?
- Has anything bad happened in their life? Did they lose someone or something precious? Did this affect their dreams? Have they recovered and if so, how?
- Have they visited any particular places that left them with a memory they cherish? Maybe a kind person, tasty food, something nice?
- Has your Fairy Vial always been in good health or not? Have they gotten cursed? Injured or shattered a vial? What was the result?
- Check out the examples listed at the beginning !

If a future sky palace student, please include how they received their letter to sky palace and why they decided to go! (more info in link): [Aureuo Mimosarurm | fairyvials](#)

◆ PERSONALITY & APPEARANCE ◆

Introduce your Fairy Vial! You can include some tidbits about appearance, personality, and goals for example!

Toyhouse Character development resource: [Toyhouse](#)

Use these questions to help you!: [Personality Questionnaire for FVs](#)

◆ LIKES & DISLIKES ◆

◆ RELATIONSHIPS ◆

Describe any family, friends, or foes of your Fairy Vial. It's fine to include NPCs.

◆ MAGIC & ABILITIES ◆

We will define abilities as special skills granted by appendages or perhaps skills that a Fairy Vial has developed over time. For example, a Fairy Vial with wings has the innate ability to fly without using aura. A Fairy Vial who has trained with a titled Fairy Vial such as a Maestro might have combat or weaponry-based abilities. Not every Fairy Vial needs to have these abilities. Not every Fairy Vial has been "awakened" long enough or has had the training to develop special skills. Check Physical Adaptations in [Biology | fairyvials](#) for examples of appendage-based abilities. I have used Ami as an example below.

> Skills

Bunny Evasion: Ami has a bunny tail appendage which grants her the ability to easily jump and hop away from scary things.

Optional Challenge! Create 1-2 magic spells (unless you'd like it to be canon that your Fairy Vial doesn't know any spells!) Magic spells require use of aura. A Fairy Vial's magic is strongly related to their filler/liquid. Check [Magic Information | fairyvials](#) for Magic information. For now, disregard one-note spells. Focus on passive or active magic to develop your Fairy Vial's magic spells. I have again used Ami as an example below. [For future Sky Palace students, we will do a spell-related event in the future, and I am happy to approve your spell ideas at that time <3]

> Magic Spells

Spell name

Passive or Active

Initiated by (heartbeat for passive, song or instrument for active)

Initiating song: Can be made up or linked from youtube!

Requirements to cast spell (optional)

Spell's power/effect

Limitations of the spell (distance, speed, number of people affected, consequences on user, how the spell can be broken, time)

Example 1: Tree Speak

Passive

Initiated by heartbeat

Initiating song: N/A bc it's passive magic

Requirements: None bc it's passive magic

Spell's power/effect: Allows Ami to speak to trees and sometimes flowers

Limitations: Even if Ami can speak to trees, it doesn't mean they will respond back. Trees can be quite mean . . .

Example 2: Petal in the Wind

Active

Initiated by: Voice

Initiating song: [Shugo Chara - "Kokoro no Tamago" \(Opening\) | ENGLISH ver | AmoLee](#)

Requirements: None

Spell's power/effect: Ami becomes as light as a petal. Combined with her bunny abilities, this allows her to stay in the air even longer!

Limitations: Can only use for a few minutes. If used for longer, then the user feels heavy like a rock and will struggle to move for some time.

Example 3: Tree Transformation

Active

Initiated by: Voice

Initiating song: <https://youtu.be/utXF0PGPD3Q>

Requirements: Ami has to have seen this tree at some point in her life.

Spell's power/effect: Ami transforms into a tree. 8D

Limitations: The less times Ami has seen the tree, the less likely the transformation will be exact. Sometimes the color might end up pink or the tree might be bunny-shaped . . .

**It is fine if someone chooses the same song as another person so long as the spell is different. Unless you have specifically commissioned the one you use, we don't own these songs so please refrain from making an issue of it.

◆ TRIVIA ◆

Fun facts or habits about your Fairy Vial!

◆ QUOTES ◆

◆ INVENTORY ◆

Anything special your fairy vial carries with them? A diary? Weapon? Pancake flipper? You can write it here! You can use this space for alternate outfits as well or create a new section!

◆ PETS ◆

You can add any number of pets here, however only certain pets and a limited number of pets will be approved for Sky Palace Events. We will do a pet event in the future so approval will be given at that time.
