Music

1. Let's celebrate Spring with MUSIC!

Antonio Vivaldi wrote a long piece of music called 'The Four Seasons' - we have already listened to Fall and Winter in class, but here are some videos of SPRING. They are played with different instruments. I'm wondering what they make you think of? Do you hear sounds that make you think of birds chirping, bugs making sounds, children playing outside? Did you hear anything that sounded like a thunderstorm? Those are all sounds of Spring that Vivaldi likely had in mind when writing this piece of music.
