

Casino-Strapi:

Project Timeline:

Start Date: July 01, 2023

End Date: Ongoing. New updates and feature requests are being recorded for this project.

Services Provided:

Development of a custom plugin in Strapi CMS to generate casino lobbies for different regions, locales, devices, etc.

Goals/Objective:

Our goal is to configure Strapi CMS as per needs of the Casino builder plugin. This will enable us to manage and update Casino lobbies easily by dragging and dropping blocks, games, banners etc.

Key Metrics/Indicators of Success

We will measure the success of this project by tracking improved website performance, streamlined content management processes, and positive feedback from users.

Scope of Work Performed:

The goal is to configure Strapi CMS, my duties include assessing the Casino Lobby frontend needs and customizing the Strapi CMS accordingly. I will also ensure the proper integration of Strapi CMS with the frontend.

Tech Stack:

- React
- Strapi
- DnD-kit
