Rayman jungle run!	1 Ghz Pandora		
<a href="#">Temple Run</a>	1st batch 256mb Pandora		
<a href="#">Sonic CD lite</a>	1st batch 256mb Pandora		
Fruit Ninja	1st batch 256mb Pandora Works well		
SongPop	1st batch 256mb- Both work like they should, although the browsing the menus can be a bit tacky. When I play some more resource hungry games, I usually turn off the wifi because these, as well as other Zynga games always search for games and new opponents and that can slow the device down.		
Reckless Racing / Reckless Getaway	1st batch 256mb - They work fast and just like they should		
Wind-Up Knight	1st batch 256mb - Fun 3D platformer, looks good and plays smoothly.		
Amazing Alex	1st batch 256mb - plays nicely and has no problems
