

MVA Athletic Academic Eligibility

Each student participating in co-curricular activities will be expected to maintain academic eligibility. Students are ineligible for co-curricular activities if they have **any I's reported on their Mid-Trimester or Trimester Report Card in ANY classes**, or if they **have N's reported on their Mid-Trimester or Trimester Report Card in 2 or more classes**.

At trimester end, **students not meeting eligibility will have a one week suspension from any competition**. If there is not a competition scheduled during the week of ineligibility, the suspension applies to the first contest following suspension. Grades will be reviewed after one week and must all be passing in order to regain eligibility. Students not passing after the grade review will serve an additional week of suspension and start the process over. Students will still be expected to participate in practices and attend games unless after school time is needed for homework help.

At mid-trimester progress report time, students who do not meet requirements will remain eligible to participate in contests and practices if they attend Homework Club.

The procedure for informing students and parents of sporting eligibility will be as follows:

- a. The principal will receive grades from teachers
- b. The principal will notify coaches
- c. Students/parents will receive contact from the principal
- d. When students are eligible, principal will communicate to students/parents
