

Cleaning and Disinfecting Plan for the 2021-2022 School Year

The District will retain the enhanced cleaning and disinfection initiated as part of our previously adopted Covid cleaning protocols. The District will be utilizing electrolysed water to accomplish this task.

The District will perform high-touch surface cleaning and disinfecting daily, including desktops, doorknobs, light switches, telephones, faucets, etc. In areas with higher transmission risk, electrostatic sprayers will be used along with surface cleaning as an additional preventative measure. These areas include, but not limited to, restrooms, nurse's offices, locker rooms, cafeteria spaces, and elementary classrooms.
