# AP Computer Science Principles Summer Assignment 2025

**Please be careful and make sure that you are doing the right summer assignment! There are 2 AP Computer Science courses. This is AP Computer Science Principles (or AP CSP)**

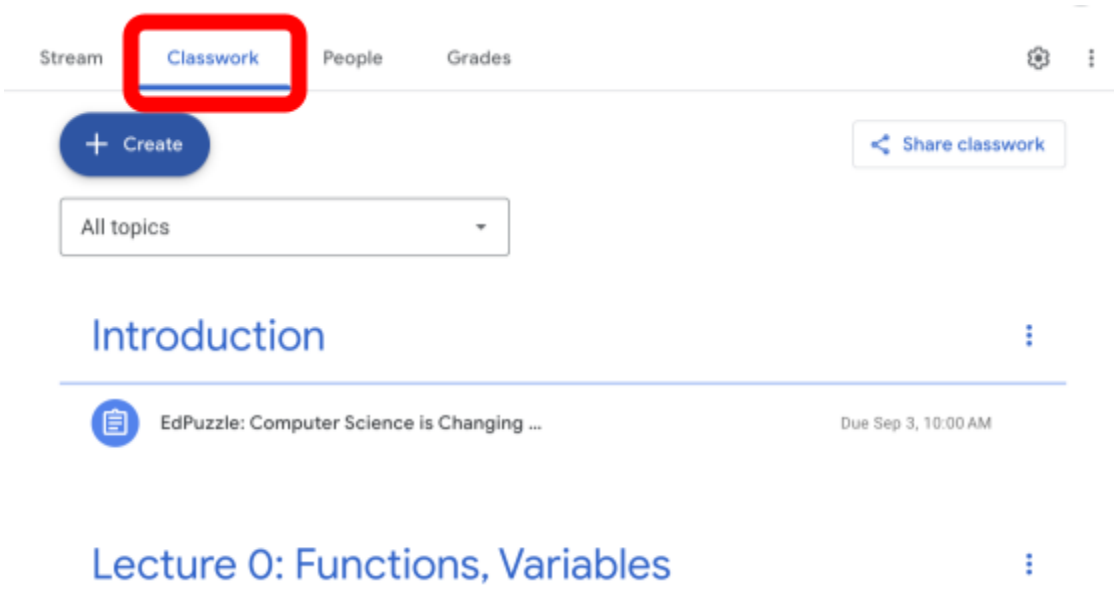

Thank you for your interest in AP CSP. The summer assignment is in a google classroom. The code is: **uqeerku**. Please sign up for the classroom by June 30th. (This is to ensure all tech pieces work smoothly). If you have any issues accessing Google Classroom or EdPuzzles, please email me ASAP.

All assignments are under the **Classwork** tab. Assignments include EdPuzzles, outlining notes, multiple choice questions, and coding practice called ***psets***.

**Please complete the assignments in order from top to bottom.**

You should allot yourself ~10 hours to complete the assignments. The assignments are due on **September 2, 2025, 10 am**. Failure to complete all of the assignments will mean you have to leave the course.

There will be a **quiz on the summer assignment during the 2nd class**. Please complete the assignment and prepare for the assessment.

Please reach out with any questions: bcornish@bronxvilleschool.org

Warmly,
Mr. Cornish
