Membership

- 110 Active Members, 1 renewal
- Membership Drive
- Bryon to create a graphic - target by location

Bike Patrol - no updates

Trail Updates:

Musky Mountain - Bryon

- did a walk-through, it went very well.

- Beth is very excited about what we are doing there. Talked about what we want to do, e.g. groom, would need to set up agreements (e.g. what kind of equipment to keep there, etc.), or getting permissions for various uses or potential for kiosk.
- They may be able to provide some funding for an interpretive kiosk.
- Travis will be starting on July 17th.
- Can do some hand building out there, starting on the 17th, opportunity for Sucker Springs crew to learn - add mileage for flow later or build up hand built trail. Adds variety. Great rocks and terrain to utilize.
- Going to add some more gates. Need to sign it so they know not to ride the road (not our job to enforce it). Bryon to put together a list of signs needed - Danny to help.
- For the RTP grant, need to have skin in the game, could partner with Plum Lake to invest something (maybe road crossing signs or directional signs), that would qualify (and plow the parking lot for the winter). That would be an excellent grant to get.
- Rules about size and diameter of trees - nothing over 8 in, or let them know and they'll work with us to remove.
- Can also clean out all the roads (work with back country ski enthusiasts), would help emergency access and Travis can use them for moving machinery
- Groundbreaking ceremony - Sunday, July 23rd 1 PM

#### Sucker Springs

- Waiting to see if they can get LUA from county before starting the build, meeting coming up soon

#### Zip - MJ

- Would like to get machine there for the weekend of the 22nd or 29th or the first weekend of August and get some help to work on the pump track. Would like some help with a few people to rebuild it.
- Danny can bring machine last weekend in July 29th
- Look over pump track at Thursday night ride (Danny and MJ)

#### Raven

- Can we contact JJs for paving stones to manage the berm and would need some fill for that area or reroute entirely
- Tony and Danny to meet out there on Friday, 8/4 2 pm (tentatively), with Bryon and Bruce and Nick
- Tony needs Bryon to design sign for skills course

#### New Business

- Kids clinic August - Jason, Val - get Carter Johnson involved too; teens interested in sessioning features with experienced riders
- Brenda Z-T interested in running clinics at the Zip to promote her business. Potential for some donations to LAMBO if someone wants to get involved.
- Minocqua Hotel Tax Grant Due next week - Sylvia to work with Joe to get the materials and ideas together.

- New race test in August - new course; awesome points for doing roll-over. Frank to talk to Pertille about bb-gun and Josh this weekend.

Motion to adjourn at 7:13 PM - Danny & Frank, approved
