Hi hi tysm for checking my fics out during these trying times <\3
It might/probably be that I will add new links to this file because I'll likely keep on writing while Ao3 is down, so if you want to, keep an eye out for that!
If anything is wrong with any link or something else with these fics, let me know!

Greetings, Cyyesz aka Cy
(Comments are on, so pretend like it's Ao3 or even Wattpad if it allows you to react to specific bits of the doc haha, just do whatever you prefer and enjoy yourself.)
((Also I might be open for one shot commissions for a short bit so if you have anything, feel free to DM me on Twitter or leave a comment on one of the fics!))

Apologies for any outdated author notes or notes you weren't supposed to see LMAO
