

Reading can be both personal and shared experience. As we get ready to embark on a year of reading, take time to think about your attitude towards reading.

Your task is to create a presentation to share with the class that shows your experience, your likes and/or dislikes, and your successes and/or challenges as a reader. In addition, please close your presentation with at least one personal goal for your reading this year.

Your presentation should be multimodal (text, images, and graphics).

You may include the following:

- Earliest memories (including favorite picture books)
- Elementary, middle, and high school (books, likes / dislikes). Be specific and include your favorite books and why you liked them.
- Examples of genres that you enjoy (or don't enjoy)
- An explanation of what you find easy or difficult
- An explanation of why you read?
- A goal for the year.

Choose a platform for your presentation. Suggestions include:

- Storify
- Google Slides
- Prezi
- eMaze

Or... choose a platform and check with me.

Be sure to check to make sure you included all the categories in the prompt. Also, revise for mechanics. When you're finished, share your presentation on the Classroom website.
