A Business that can't be Replaced by A.I which can make you over 10k a month

And you don't really need any prior experience in that area,
to start a Business which will generate you an income to escape your 9-5 ratrace

Starting your own cleaning company.

Think about a big city and think about how many Buildings there are,
All of them need to be cleaned. So the market is basically endless.
And the good part is, keeping things clean is an ongoing process, so the demand never stops.

This Business has many advantages

- You can manage your business from home
- It only takes 1-4 hours a day to manage everything
- You don't even have to live in that area
- You don't actually have to clean by yourself

Big offices, Air bnb's and many other places are in demand of such services.

One of our students has employee who are 19 years old and have no prior experience and still generate him 10k a month each.

we teach you how to set up your company, get people to work for you, how to make contracts with companies in need and how to get ahead of your competitors
