

PartyCoin Roadmap/Whitepaper

Overview

The 90's are making a comeback & there is a demand for 90's iconic items & clothing, even for the highly acclaimed artists of the times Physical CD's (Yes CD's)

The main achievement for PartyCoin is to provide a range of updated 90's themed PARTY Items in the required Specialty in exchange for PartyCoins, you can then get the party started or keep it alive, great for Individuals, Groups or even Corporate Events !

Listing PARTY on an Exchange/Multiple Exchanges & CryptoCurrency Payment Processing Service is required to start achieving & distributing the following:

Every participant at the party can blend into the Party Environment & Surroundings whether it be wearing our Neon Designed Shirts, Shorts, Skirts, Trousers or Dress added with the accessories that PartyCoin aims to provide, you & others will be the talk & life of the party !

Party-goers want to see those moves on the dance floor to the hottest hits & you've been waiting to show them, want a self esteem boost to reveal those hidden talents ? Then the sneaker & heel add-on that PartyCoin will custom-make and provide for you will be sure to electrify the dance floor (Not literally)

Want some headwear to go with it ? PartyCoin will eventually provide a specially made snap headwear piece that is comfy + will get you thumping to the groove in your own spotlight, snap it, put it on, watch everyone be mesmerized to the moves of the glowing half sphere.

This is the easiest way to sum it up for the average Joe to understand why PartyCoin has been created and what it is striving for with its own use.

UH (UsuallyHappens)

Goals

1. Listing on 1+ Exchanges
 2. Listing on a CryptoCurrency Payment Processor
 3. PR Campaign
