

SL: Double your sales with these methods!

Hello “ **Dr.Lensor**”

I came across your website, and it caught my eye for the information that you provided, About blue light, and how it can affect your eyes.

I also analyzed the TOP brand for blue light glasses like Warby Parker, Felix Gray, and Oakley.

I have some suggestions that can make your sales page better and easier to read, so more people can use the benefits of your glasses.

Also, I suggest using photos that actually show how well your lenses block blue light.

This approach ensures that when people come to purchase glasses, they can have complete confidence that your glasses truly deliver on their promises.

To discuss the rest of the suggestions I have for you, could we schedule a brief call at a time of your convenience.

I look forward to working with you!

Best regards,

{Mohammed}
