CONCLUSION

Provide a statement that what is expected, as stated in the " Introduction & quot; chapter can ultimately result in & quot; Results and Discussion & quot; chapter, so there is compatibility. Moreover, it can also be added to the prospect of the development of research results and application prospects of further studies into the next (based on result and discussion).

ACKNOWLEDGMENT

The acknowledgement is a form of appreciation for the contribution of an institution or an individual who is not considered as the writer for example an institution or an individual who provides the research funding (**funding support**) of this publication.
