To whom it may concern,

We would like to report some cases that cause us concern and discomfort in relation to the hatred that is growing more and more towards the member (Park Jimin). In recent months we have noticed that antis of the member (Park Jimin) have been gaining some notoriety by joining forces and engaging significantly on the weibo app.

Many of these accounts continue to use image manipulation, distortions of his personality, accusing him and manipulating people into attacking him more and more by using hateful images such as funeral photos wishing for his death.

In some of these posts on Weibo, we can see that some people are planning to start a hate campaign against Park Jimin on his birthday by using the hashtag (#朴智旻1013生日出斌#) on the 13th.

It is extremely important that situations like these do not continue to gain notoriety, it is unacceptable that these individuals continue to gain freedom.

We hope that the company will take strict action against anyone who intends to harm the artist's mental state and well-being.
