Instructions:

- Go to: http://env-7855542.us.reclaim.cloud/
- Paste or type a text in the right panel.
- Select a part of the text with your mouse, and when you stop clicking, a green box with the text you selected will appear in the bottom right of the page.
- Drag that green box to the mapping area on the left.
- You can then edit the text in the box, and connect it with other boxes by connecting the dots on the boxes.
- You can add new boxes (unconnected to the text) in the mapping area by pressing the circled '+' button on the bottom left.

Please feel free to email me feedback on the argument mapping prototype!
