

Lavender Scrub (with Biotin and Stem Cell)

Product Analysis

Lavender Scrub with Biotin & Stem Cells offers a multi-functional blend of gentle exfoliation and skin-fortifying care. Finely milled sea salt clears away buildup and reveals smoother texture beneath, while a calming touch of lavender and grapefruit oil enhances the sensory experience. Skin is conditioned with rich emollients like shea butter, caprylic/capric triglycerides, and sunflower seed oil, leaving it soft and comfortable. Biotin and botanical collagen work alongside stem cell extracts from apple and argan to support firmness, hydration, and overall skin vitality—making it a smart option for those seeking visible skin renewal with a relaxing, aromatic ritual.
