

Privacy Policy for Memory Tiles This privacy policy governs your use of the software application Memory Tiles for mobile devices that was created by Rete. The Application is an Android game that displays advertisements but does not collect any user data.

User Provided Information

The Application does not obtain any data from the user.

Automatically Collected Information

The Application does not collect any information automatically.

Advertising

The Application displays advertisements. Advertisements are provided by third party advertising networks, which may collect information about the user's interests to provide targeted advertising. The advertising networks may use this information to display advertisements that are relevant to the user. This information is not shared with the developer of the Application.

Changes to This Privacy Policy

The developer reserves the right to update this privacy policy at any time. Any changes to the policy will be posted to this page.

Contact Us

If you have any questions or concerns about this privacy policy, please contact us.

By using the Application, you agree to the terms and conditions of this privacy policy. If you do not agree with the policy, do not use the Application.
