The Kid's app is an application that is free to download and use.

The app currently contains educational data for children, and there will be more updates in the future. The icons used in the app are sourced from two websites: freepik.com and flaticon.com.

The majority of the data in the app is intended for children, but adults can also use it for their own information.

For now, the app does not use any online databases or APIs.

The app operates offline and is free to use, but in the future, online features may also be introduced.

The app currently uses AdMob, but in the future, Firebase and OTP may also be implemented.

Users of any age can use the app, from children to adults, as the app is not age-restricted and does not contain any content that may be harmful to users.

The app does not contain any sexual content, and there are no plans to include such content in the future.

The app is related to education, kids can learn a lot of things in this application.

Currently, image sharing is not enabled in the app

The app currently uses AdMob permissions, but in the future, additional permissions may be added and will be updated accordingly.
