

Hello Angelina,,

I went through your website and I have some emails that I wrote specifically for skincare products that I could share with you for your email list to help your subscribers get more serious about your products and services.

Plus, there's a way you could use your Email popup form to get more leads and conversions. I did the same thing with another Saas company and the result was astonishing. Judge yourself...

As a bonus, I will attach an email for you to check what one of the emails might look like 📧.

If you are interested let me know, I'd love to go over that with you and show you what I would do.

Thanks,

Mohamad.
