Next, in order to add Mallcoin tokens (MLC) to your Ethereum-wallet.

How to add MLC tokens to your Ethereum-wallet?

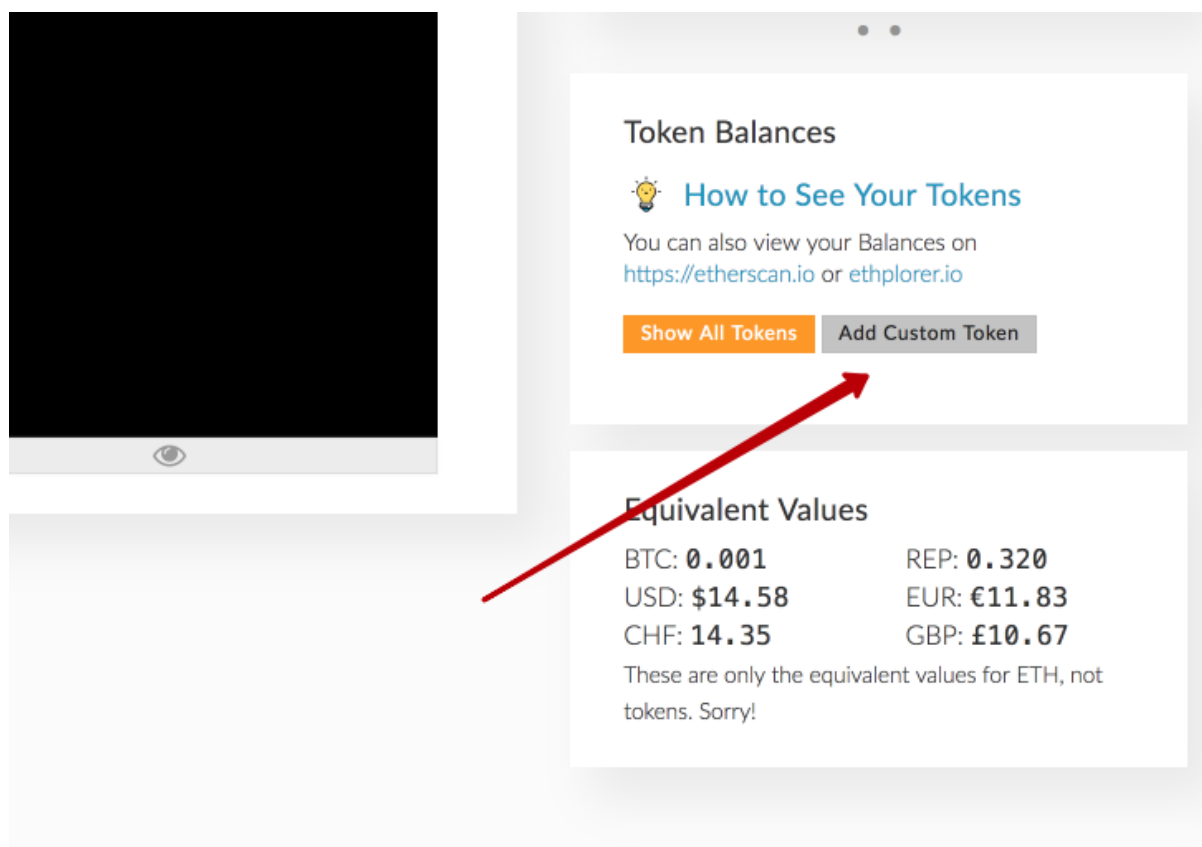

In order to add MLC tokens to your Ethereum-wallet, you need to log in on the site where you registered your receiving wallet, specified in your account.

In this manual, we will show the process of adding tokens using the site as an example : <https://www.myetherwallet.com/>

After login on the site we go to the tab "**View wallet info**":

Having lowered the page just below, on the right you need to find the "**Token Balances**" section and click the "**Add Custom Token**" button:

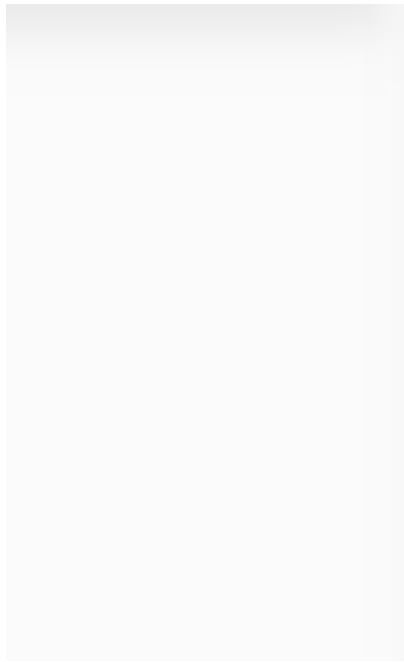

In the appeared window you need to enter the following data in the necessary fields:

Token Contract Address: 0xC72ED4445B3fe9f0863106E344E241530d338906

Token Symbol: MLC

Decimals: 18

As soon as all your data has been entered you need to click the "**Save**" button:
