The Somebodies

The somebodies are forced to go to school and  
expected to complete their education with college

The somebodies are expected to do something  
with their lives

If the somebodies don't get a job or don't do anything,  
they are looked down upon in society

Somebodies have to do this, \_\_\_\_\_

Somebodies have to do that, \_\_\_\_\_

Somebodies are told to do what society says

If those somebodies don't do it,

then they become one bodies.

One bodies are society's outcasts

There are only a few, that's why they're called one bodies

But what happens to those somebodies?

They are lead by those one bodies

The onebodies control society
