“...in the field of health law, and in the special realm of bioethics and the law, George Smith has become a world-recognized scholar of the first order. George Smith holds up the light of his scholarship to the rest of us. He sheds light into dark and mysterious places, where the darkness threatens to encircle us and the mysteries deepen and multiply into gloom.”

"The contributions of George P. Smith, in their scale and magnitude, and the optimism and depth of coverage, are of epic proportions . . . he does more than prophesize the course of the New Biology; he demonstrates how the law must react to varying and complex pressures of conflicting interests if it is to direct the course of the New Biology."

Books:

DIGNITY AS A HUMAN RIGHT? Lexington, Rowman & Littlefield (2018).

"The concept of dignity is a core one to lawyers and philosophers, yet it is often misunderstood and misapplied. In Dignity as a Human Right? George P. Smith, II, one of the world's greatest medical lawyers, clarifies the concept of dignity as a human right in an insightful, significant, and powerful analysis." – Jonathan Herring, Faculty of Law, University of Oxford

"With this deep, nuanced, and analytic dive into human dignity, Smith draws on and, indeed, extends his prior influential and leading scholarly work in bioethics, its particular and various intersections with the law, and how it might inform vexingly complex and crucial end-of-life questions. –Michael Heise, Cornell Law School

DISTRIBUTIVE JUSTICE AND THE NEW MEDICINE (2008) Elgar Press, Boston and London, England.

“George P. Smith is one of the world’s leading experts on the legal and ethical issues raised by modern medicine. His book is a wide-ranging and deeply informed and considered analysis of those issues, with particular emphasis on the inequality with which the benefits of modern medicine are bestowed on the sick. Knowledgeable as well about the technical aspects of the biomedical revolution, Smith writes with insight and authority, and offers a perspective that will influence the policy debates.” –Richard A. Posner, United States Court of Appeals for the Seventh Circuit and University of Chicago Law School
