

Privacy Policy for Auto Flow Chrome Extension

Last updated: July 5, 2026

Auto Flow is a Chrome browser extension that automates image generation on Google Flow (labs.google.fx/tools/flow).

Data Collection

Auto Flow does not collect, store, transmit, or share any personal data. The extension does not have servers and does not send any information to third parties.

Data Stored Locally

The extension saves the following settings locally on your device using Chrome's storage API:

- Download folder name
- Delay range (min/max seconds)
- Serial number preference

This data never leaves your device.

Permissions Used

- sidePanel: to display the extension UI
- storage: to save settings locally
- activeTab / tabs: to detect and interact with the Google Flow tab
- scripting: to inject automation script into Google Flow
- clipboardWrite: to paste prompts into Google Flow's input field
- downloads: to save generated images to your device
- Host access (labs.google/*): to automate Google Flow only
