Provide a general synopsis of what the course/activity covered/contained.

An overview of successful partnerships between state DOTs and the maintenance asset contracting industry, and how Maryland can benefit. Performance-Based Asset Maintenance contracting allows state DOTs to establish priorities and deliver level-of-service goals for a multitude of highway assets and services. A commitment to this approach, typically for the long-term maintenance of interstate highway corridors, dually benefits the traveling public and existing state workforce, all while providing minority subcontracting opportunities.

Attach any documentation of participation: i.e. Certificate of Attendance/Completion, transcripts, handouts, tests, programs, outline, reports and other demonstrative evidence of attendance.
