

East Marshall Little Mustang Preschool classes have spent quite a bit of time cooking and preparing snacks this fall! Children have worked together with staff and parent volunteers to make applesauce, apple bread, ants on a log, salsa, pumpkin seeds, and even pumpkin pie! Cooking is a fabulous activity to do with children of any age. It can be a wonderful bonding experience, and it teaches skills from personal care, fine and gross motor skills, mathematics, reading, vocabulary, and more! We encourage all families to spend time cooking together!
