SURFACE ASSESSMENT & METHOD

SURFACES & CLEANING METHOD

Surfaces to clean (check all): ☐ Siding ☐ Driveway ☐ Walkway ☐ Patio ☐ Roof ☐ Fence ☐ Deck

Cleaning method: ☐ Pressure wash (2,000–4,000 PSI) ☐ Soft wash (<500 PSI + solution)

Surface material: ☐ Concrete ☐ Brick ☐ Vinyl siding ☐ Wood ☐ Stucco ☐ Other: _____

Stain difficulty: ☐ Light ☐ Moderate ☐ Heavy (oil, rust, deep organic)

Chemical / solution: ☐ Included ☐ Eco-friendly / biodegradable | Product: _____

Areas to avoid: windows, garden beds, light fixtures, electrical — Notes: _____

PAYMENT SCHEDULE

Payment Milestone	Amount	Due
Deposit (large / commercial jobs)	\$0.00	_____
Upon completion	\$0.00	_____

ESTIMATE SUMMARY

Subtotal — Services	\$0.00
Subtotal — Materials/Chemicals	\$0.00
Subtotal — Other	\$0.00
Tax (___%)	\$0.00
Discount	- \$0.00
TOTAL ESTIMATE	\$0.00

WASTEWATER COMPLIANCE (CLEAN WATER ACT / EPA)

Wastewater discharge method: ☐ Diverted to landscaped/grass area ☐ Vacuum recovery & containment ☐ Sanitary sewer (with authorization)

Chemicals/detergents used: ☐ Yes — biodegradable ☐ None | Product: _____

Discharge to storm drain: ☐ Not permitted — contained/diverted per Clean Water Act Section 301

Pre-1978 building (lead paint risk if surface coating disturbed): ☐ Yes — additional precautions apply ☐ No

TERMS & AUTHORIZATION

This estimate is valid for 30 days. Price includes all equipment, water (unless client-supplied), and cleaning solution. Soft washing is used on siding, roofs, and delicate surfaces to prevent damage; high pressure is used only on hard surfaces. Wastewater is contained, diverted to a vegetated area, or recovered — process wastewater is not discharged to a storm drain, per Clean Water Act Section 301. Results depend on surface condition and age — deep stains may be reduced but not fully removed. Weather permitting: rescheduled at no charge if rain. Contractor is not responsible for pre-existing damage, loose mortar, or failed seals revealed by cleaning. Payment is due upon completion.
