**To whom it may concern**

I am writing to highly recommend **Mr. Aashish Panthi** for admission to your prestigious institution for foreign study. As the Head of the English Department at Kanti Secondary School, I have had the pleasure of teaching and watching him grow as a critical thinker for the past five years.

During that period, I have been consistently impressed by Aashish's dedication, passion, and drive to succeed. He has consistently excelled in his coursework, regularly achieving top grades in all of his classes. His essays were always well-written and thoughtfully structured, and he consistently demonstrated a strong understanding of the material we had covered in class. His participation in class discussions was always insightful and added value to the conversation.

One standout example of this I vividly remember was his presentation on "Soft Storm" by Abhi Subedi and "All the World's a Stage" by William Shakespeare. His interpretation on the line from the play by Shakespeare is that, "The line could be seen as a commentary on the fleeting nature of life. Just as a stage play is temporary and ephemeral, our lives are also temporary and transitory. This could be seen as a reminder to make the most of our time on this earth, and to live fully and authentically in each stage of our lives." It was very striking for me as well. In his other presentations as well, he makes connections to broader themes and ideas that demonstrate a deep understanding of the texts. His contributions have been invaluable in fostering a sense of community and passion for the subject among his peers.

In addition to his impressive academic achievements, Aashish has also shown himself to be a valuable member of our department. He was also awarded "Amar Maya" scholarship. Aashish also won the spelling contest organized by the college. He has taken on leadership roles in several extracurricular activities like organizing the annual event for the college where he co-hosted the event and his performance as a host was also praised by our chief guest, Mr. Devendra Poudel, education minister of Nepal.

I am confident that Aashish would be an asset to your institution and would thrive in the challenging and stimulating academic environment. I wholeheartedly endorse him for admission and strongly believe that he would make the most of the opportunities offered by your institution. Please contact me for further inquiry.

### To Whom It May Concern

I am writing to highly recommend **Mr. Aashish Panthi** for admission to your prestigious university for foreign study. As the Head of the Department of Physics at Kanti Secondary School, I have had the pleasure of teaching Aashish for the past two years.

Mr. Panthi is an exceptional student and has consistently demonstrated outstanding aptitude and ability in the field of physics. He has consistently ranked at the top of his class, and has shown a passion and dedication for the subject that is truly remarkable. I remember he got infected by COVID before his final exam in grade 11. Despite the adversity, he was able to deserve straight A's in all of his courses in grade 11, proving his passion and drive to succeed. I'm still amazed that he learned all those complex concepts by himself and also to that depth. I had never encountered that kind of determination from my other students in 14 years of teaching experience.

In addition to his academic abilities, Aashish is also an active and engaged member of our department. I have personally observed he is very pragmatic as he had successfully conducted 25 experiments in 2 years period. His experiments reports were also very detailed. But perhaps most impressive was his ability to help his classmates understand the material. I had eight students who were struggling with their term paper, but with Aashish's help, they were able to pass the assignment. It was clear that he had a knack for explaining complex ideas in a way that was easy for others to understand. He is a team player and always willing to help his peers, and there is no doubt that he will make valuable contributions to your university's community as well.

Aashish was also awarded "Amar Maya" Scholarship in 2021. Over his presence in two years, he represented school in state level championship twice. On his first representation, our school's team suffered a tough loss. Instead of blaming his teammates, he took responsibility for the loss and praised the whole team for their hard work and effort. As he represented school for the second time, he worked tirelessly to boost morale and encourage his teammates. When the team finally managed to pull off a win, he was the first to congratulate and praise his teammates for their hard work and dedication. It was in these moments that I truly saw a leader in him.

I am confident that Mr. Panthi will be an asset to your university and I wholeheartedly recommend him for admission. Please do not hesitate to contact me if you have any further questions.
