# Connect to Wifi at Adelphi Using Apple's macOS

Connect to the Wireless Network at Adelphi University
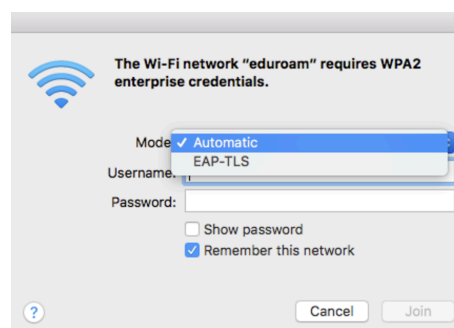

Connecting with eduroam

Step One

- Click the WiFi icon in the menu bar (top right of your screen)
- Select the eduroam network from the dropdown menu
- If the eduroam network isn't there, click Join other network and enter eduroam as network name.

Step Two

- A window will pop up where it will ask you to choose a mode, and enter your **Username** and **Password**.
- Choose "Automatic" as your mode.
- Students:
  - Enter your Adelphi username BUT follow with @adelphi.edu instead of @mail.adelphi.edu (example: username@adelphi.edu)
  - Enter your eCampus password
- Faculty and Staff
  - Enter your Adelphi usernam, followed by @adelphi.edu
  - Enter your eCampus password

Step Three

- Click join, and in a few seconds you should be connected.
- The WiFi icon in the menu bar will change to indicate the signal strength.
