

Debate: Whether to Drop an Atomic Bomb? xq

	Position A	Position B	Position C	Position D	Position E
Group Members Names	nathan, rene kimberly, jenniffer Jose, David, Allyah, andres, Yonatan	Nick Kolke, Evelynn Rosas, Francois Schaeffer, Luis. monica, denisse, noah, jesus		katie, mariela, roman, raymound	Geo, Javier, Marisol pedro
Opening Statement:	we should drop the atomic bomb without warning We should drop the bomb without warning so we don't get any casualties	Japan will not surrender and sending more troops will only cause more deaths. we believe that if we drop the atomic bomb in an unpopulated area to show them how destructive our weapons		if the u.s were to drop the atomic bomb it would leave a scar of shame upon the u.s	I believe that rejecting the atomic bomb and try to convince Japan to surrender is better than having mass destruction to begin with.

		are so that they can surrender.			
Facts to Support your Argument	<p>the bomb is an effective way to end the war quickly</p> <p>the bomb dropping is better in stealth so then we can end the war quickly.</p>	<p>Kamikaze pilots have destroyed many ships and we have already lost many people taking the islands of japan. The japanese fight to death and being an island nation will make it that much harder and that many more lives sacrificed to this war.</p> <p>if we drop the bomb in an unpopulated place we won't be risking any lives and japan will see how much damage the bomb would cause and they would most likely surrender.</p>		<p>-atomic bomb would jeopardize the position of the united states as a great humanitarian nation.</p> <p>-could cause a lot of money to produce the bomb.</p> <p>-would cause a lot of innocent lives</p>	<p>-It would kill a lot of innocent people by using the bomb making the war worst</p> <p>-By persuading with Japan lives wouldn't be lost anymore</p>
