

7th Grade Digital Citizenship Curriculum Outline

Course Name: 7th Grade Digital Citizenship

Grade Level (s): 7

Course Description: Digital citizenship refers to the responsible use of technology by anyone who uses computers, the Internet, and digital devices to engage with society on any level. Building on knowledge and skills from 6th Grade Digital Citizenship, students will continue to deploy 21st century skills to learn and grow into more digitally literate citizens during the current state of the digital age and beyond. The ultimate goal is to develop digitally and civically-minded students that can successfully use available technology appropriately to build their skills and knowledge at this level to be on track to graduate high school ready for success in careers, colleges, and community.
