GOOGLE SITES:

Example Below is for a Child Development Student Site, but can be used for any content

- [Creating a Portfolio Folder](#)
- [Setting up Portfolios using Google Sites](#)

Drawing & Designing

SketchUp For Schools

- All staff & students can now start a SketchUp drawing right from their Google Drive
- (New > More > SketchUp for Schools), or from the Google Apps launcher (the 3x3 grid of squares seen at the top-right on Google Drive, using Google apps > More > SketchUp for Schools).
- Student (and staff) will want to create a folder in Google Drive for storing the SketchUp drawings, because when you first Save a SketchUp drawing, it asks what folder in your Google Drive you want to store the file in.
- [Tutorials](#)

Planner 5D

- Create home design and interior decor in 2D & 3D without any special skills

Floor Planner

- Floorplanner is the easiest and best-looking way to create and share interactive floor plans online. Whether you're moving into a new house, planning a wedding or rearranging your living room, Floorplanner has the right tools for you.

Audio Editing

Soundtrap
<ul style="list-style-type: none">• Soundtrap could well be both your Audacity and GarageBand replacement, as it's got a large selection of loops and other great sounds to build your songs with. They're easy to use and sound fantastic. The interface will be familiar to Audacity users and you'll be able to do most things you're looking to do.• MORE FEATURES THAN Twisted Wave, includes loops• Tutorials

Twisted Wave

- A full featured audio editor that allows you to: - Edit audio files from your computer or your Google Drive, - Apply effects, - Save in one of many supported file formats, and export the file back to your disk, Google Drive
- [Twisted Wave Reference Manual](#)

Vocaroo – The premier voice recording service

- **Simple and easy** voice recording with no editing - NO editing features
- Record your voice, download the MP3 and upload it to your Google Drive to use however you wish.

Audacity

(Free Download on a Desktop or Laptop) - Will not work on a Chromebook)

Audacity is a free, easy-to-use, multi-track audio editor and recorder for Windows, Mac OS X, GNU/Linux and other operating systems. The interface is translated into many languages. You can use Audacity to:

- Record live audio.
- [Record computer playback](#) on any Windows Vista or later machine.
- [Free Download Site](#)
- [Audacity Intro Tutorial](#)

NOTE: *this program is NOT cloud-based; all files (JPGs, music, video segments, etc.) related to the making of MovieMaker movies must be kept in the same folder for the movie to work properly. Please consider using a flash drive if you are working between home and school.*
