

LIST OF VODS

LIST OF RECENT TOURNAMENTS

Note: I used terms to divide how difficult each of the brackets were, based on the Player amount and base

This was partially subjective but I would say I did a decent job dividing them

- Super Major: literally the absolute best of the best playing in it
- Major: many top players at it
- Regional: very high level players in it

Most **Top End** Weapons are Covered here!

This is WIP (both in Format and Player List), but eventually I'll include Links and more Weapons!

A player is marked with a weapon if they have currently, used it in tournament at least a few times!

- "Current" would be from the 9.0 Era and later
- If they don't play in general currently they're marked with a *

I included many players at the top and high end of the big 3 regions (Japan, NA, EU) and an Other section for well... other regions!
