[Ben] thank the air force for inventing Parachutes!
[Dan] yeah… that was fucked up.
[Steve] Your telling me.
[Dan] I cant believe how easy it was to hit its fuel line.
[Steve] stop bragging, any of us could have done that.
[Dan] but I'm the only one with a sniper rifle…. Now let's go recover the prototype and capture that man…. Or one of his goons…. Damn I wanna smack their heads in.

[the 3 arrive at wreckage only to find that there is no damage at all!]

[Steve] Damn, That man isn't here!?
[Ben] He must have got away!
[Dan] that's not all that there's nothing of…
[Ben] what do you mean by that Dan?
[Dan] Ben, the fuel line I shot is in tact, not damaged!
[Steve] Maybe you missed, Dan.
[Dan] then explain why it fell out of the sky Steve!

[Jeep says in a computer voice] Self repair complete, engaging engine 1.

[Dan, Ben and Steve] WHAT IN HOLY HELL!?

End act 2 with fadeout.
