

## 7.7 Remediation Policy

Candidates who fail to pass a CalAPA Leadership Cycle are offered remediation support throughout their time in the program, and until they pass the three CalAPA Leadership Cycles. Each month, the CalAPA Coordinator reviews the results of the CalAPA Leadership Cycle Report. During the monthly PASC Program Meeting, the CalAPA Coordinator provides the results of the CalAPA Leadership Cycle Report to the Cohort Leader(s). At CSU East Bay, the cohort leader provides instruction on the CalAPA. The Cohort Leader(s) contact their current and former students who did not meet the standard or who received a condition code for missing evidence to invite them to a group coaching session. They also [provide this CTC/Pearson resource](#). Coaching sessions are offered at the beginning of each synchronous cohort-based class from August through May. Through a reflective, dialogic process, the Cohort Leader facilitates candidates' recognition of the steps of the cycle they need to revise, the sufficiency of the evidence, the rubric score and the steps necessary for resubmission. Candidates who are unavailable for group sessions may contact their coach or the CalAPA Coordinator for one on one assistance. In addition to the use of data to support candidate resubmission, generalized (anonymous) candidate data is used to facilitate course and program development, including [professional development for PASC coaches/supervisors and faculty](#).
