02:16:06 Monica M.: When a country is in rebellion, it has many rulers, but a man of discernment and knowledge maintains order. Evil men do not understand justice, but those who seek ADONAI understand it fully. One who leads the upright astray along an evil path will fall into his own pit, but the blameless will inherit good. When the righteous triumph there is great glory, but when the wicked rise to power, people hide. Like a roaring lion or a prowling bear is a wicked ruler over helpless people. An oppressive leader lacks judgment. One who hates unjust gain will prolong his life. When the wicked rise to power, people hide, but when they perish, the righteous increase.
