

AP Psychology Summer Assignment

Welcome! The AP Psychology course is designed to introduce students to the systematic and scientific study of the behavior and mental process of human beings and other species. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. Students study and implement the ethics and methods psychologists use in their science and practice.

Overview: This assignment will help introduce students to a few of the topics we will explore throughout the year.

Directions: Choose **3 options** from the lists below of podcasts and videos. Listen to the podcasts and/ or watch the videos and answer the set of questions below for EACH. Write the title of the podcast/ video you are answering the questions for and complete each question using 2-5 complete, detailed sentences.
