

# Minnesota Farmers Union Bottleneck Project attends MN Farm Fest

August 2025

Earlier this month, the MFU Bottleneck Project participated in [Minnesota Farm Fest](#), joining thousands of farmers, ranchers, and agricultural professionals from across the state. Over the three-day event, team members met with attendees to share information about career and training opportunities in the meat processing industry, including details on the apprenticeship program and available support resources. The event provided a valuable platform to connect with prospective apprentices, answer questions, and build new relationships while reinforcing existing partnerships. By engaging directly with Minnesota's agricultural community, the MFU Bottleneck Project continued its work to strengthen and preserve the state's small-scale meat processing infrastructure.
