Virginia Counts on poll workers.

Officers of Election/poll workers help the election run smoothly during early voting and on Election Day. **Roles are based on the needs and staff availability in your location**.

In Charlottesville and Albemarle the "Officer of Elections" is the only role that one must apply to, be trained, and paid for the work. It is an inside the polling place position and more than 12 hours on election day. This is a government role; the others are with the political parties.
