

# ***The Intergalactic Treaty***

This Treaty decrees that nations who sign this swear to make no intergalactic claims on any Planets, Moons, Stars or terrestrial bodies in order to leave the galaxy free to explore and research.

I, (please do not fill in here) promise to leave the heavens free of any Micronational claims, so others may prosper and explore the sky without the worries of any land claims. I also promise to take any action to deter anyone, from claiming the heavens.

I also decree that I will not recognise any Micronation that has any intergalactic claims, in order to promote the idea that Intergalactic micronational claims are by no means formal, and cannot be enforced.

Signed, Emperor Logan I of New Cymru
