

Good Boy! Points

Last Revision: May 25th 2021

What are they?

Good Boy points or (**GB**) are an extra benefit to being a subscriber to my Patreon content. The points can be redeemed for special benefits, influencer rewards, permanent Discord or Telegram titles, and other rewards that may be available to a specific pledge tier.

How are they Earned?

For every **\$2** spent monthly on my Patreon, you will earn **1** point. Bonus points may be earned through Patreon only events, or community activities.

What can my Good Boy points be spent on?

This is a current list of what **GB** can be spent on. Benefits or rewards may be adjusted, added to, or removed at any point, without notice.

What can my Bad Boy Points be spent on?

Bad Boy points are spent on one of two avenues, **Social Gaming**, or **Art Streaming**. You could even theoretically spend enough points to have me as a trophy partner in a tabletop game of your choice, although fair warning: I'm very **unlucky!**

BAD BOY! Points

If you want a comic, please have <u>some idea</u> of what you're looking for ready! Contact me if you have questions. | |

Do I need to be a Current Subscriber to use these points?

For now, yes, it will be required that you be a current subscriber to my Patreon to redeem any points you may have. Sorry for any inconvenience this may cause.

How will points be Tallied?

From January 2018 to Now:

When you submit a request through the [following linked form](#), I will tally all pledges that were successfully processed through Patreon. I will then compare that number to the number of redemptions to determine the total points. (For instance, if you requested a sketch of your character, and I completed it, then those points will be counted as redeemed.)

Prior to January 2018:

Pledges prior to **01/01/2018** will still generate points, but at increasingly lower values.

2017 points will have **0.75** their value.
2016 points will have **0.50** their value.
2015 points will have **0.25** their value.

(As an example, let's assume you potentially had 16 points in 2017. As a result of degraded value, you would only have 12. In 2016, 16 points will be valued down to 8. Finally 16 points accumulated in 2015, they would be valued down to 4.)

Why the devalue?

Part of the reason has to deal with **inflation**. The other reason is I have far more experience, having developed my skills as an illustrator/artist. In other words, the work I produce **now** is at a different level compared to **2015**.

Can I use all these points like money?

No, **GB/BB** points cannot supplement real money. If for instance you wanted to buy a commission from me, you would still have to pay in **\$USD**. These points have no monetary value and therefore cannot be exchanged for real life money.

Why the change in Art for Points?

As I had stated previously, this was something I was going to offer.

The feedback I am getting is still very mixed, but a growing majority of my subscribers like the idea, and since I am in the business of pleasing the people who pay for my services, I will cater to that crowd.

This system has been adjusted to meet my needs as well, and I have limitations that I have placed into effect so I'm not overwhelmed, and the costs to me are mitigated.

I'm X Gender, can I call them "Good X Points"?

As long as I'm aware whether they are "Good" points or "Bad" points, it does not matter to me what you end up calling them.

I have been a Patreon since 2015...

I'm eternally grateful for your continued support. I am looking forward to hearing from you about all the things you've loved seeing over the years. If you've supported me for a great length of time, I will give back in my own way!
