The Casebook of Forensic Detection – Psychological Profiling

Richard Chase (pgs. 160 -163)

- 1) What did a yogurt container found at the crime scene suggest?

- 2) Explain how the FBI profilers came up with the conclusions that the killer was thin, had an undernourished appearance, and was slovenly and unkempt.

- 3) Most killers fall into two categories: _____ and _____.
Which category did Richard Chase fall into and why?

- 4) What did the location of the car being dumped have to do with the FBI's profile?

- 5) What was the perceived reason that Richard Chase drank the blood of his victims?

- 6) Why did two members of a mental hospital quit?

- 7) What was significant about the word "Today" written on a calendar found in Richard Chase's home?
