Select the question(s) you want to remove from this activity by clicking on "Remove this question."

Justify each Step (10.1.24) (MI) (1.1.15 Evaluate Question) [Remove this question](#)

Drag and drop the appropriate property next to each step to justify the step.

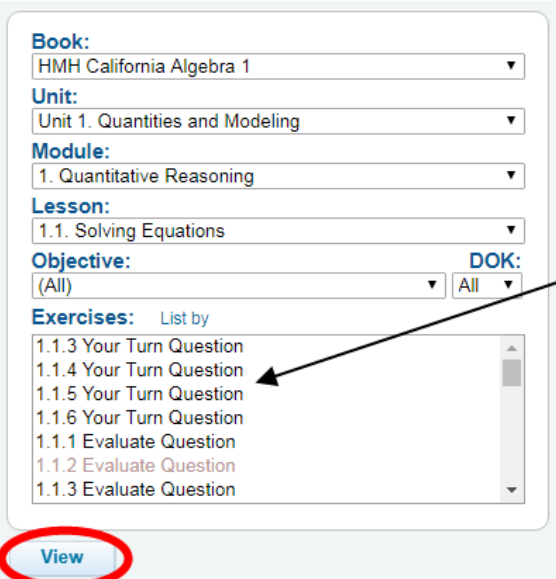

$8x - 7 = -12$

$8x = -5$

$x = \frac{-5}{8}$

Division Property of Equality
Multiplication Property of Equality
Addition Property of Equality
Subtraction Property of Equality

6) 

Book:
HMH California Algebra 1

Unit:
Unit 1: Quantities and Modeling

Module:
1. Quantitative Reasoning

Lesson:
1.1. Solving Equations

Objective:
(All)

DOK:
All

Exercises: List by

- 1.1.3 Your Turn Question
- 1.1.4 Your Turn Question
- 1.1.5 Your Turn Question
- 1.1.6 Your Turn Question
- 1.1.1 Evaluate Question
- 1.1.2 Evaluate Question
- 1.1.3 Evaluate Question

[View](#)

You can also view and add the "your turn" questions that are similar to the book's "your turn" questions with different values.

Assignment Title:
1.1 Solving Equations - Homework

Assignment Type:
Homework

Assignment Style:
High School

25 Questions in Activity

- 1.1.2 Evaluate Question
- 1.1.4 Evaluate Question
- 1.1.5 Evaluate Question
- 1.1.6 Evaluate Question
- 1.1.7 Evaluate Question
- 1.1.8 Evaluate Question
- 1.1.9 Evaluate Question
- 1.1.10 Evaluate Question
- 1.1.11 Evaluate Question
- 1.1.12 Evaluate Question
- 1.1.13 Evaluate Question

8) Now you will need to associate your assignment

Please choose a class and a book:

Class: Algebra A (period 3),3

Book: HMH CA Algebra 1

☒ View all assignable content

☐ View all assignments made

Please choose an assignment type:

Category: Unassociated Uploaded Tests

Grade: All

☐ Show only active assignments

Submit
