

2024–2025 Assembly Bill 195 Requirements

Assembly Bill 195 Overview

[Assembly Bill \(AB\) 195](#) revises provisions relating to pupils who are English learners (ELs), extending the rights of EL pupils and parents/guardians. Section 3 of the bill provides an overview of the rights. Additionally, school districts are required to collect and report data concerning ELs, aiming to enhance transparency and accountability in the provision of education to these students, [among other provisions](#). Schools support the implementation of AB 195 by verifying the posting of EL pupil and parent/guardian rights in the fall of each year and by reporting EL participation in athletics and extracurricular activities in the spring of each year.

Verification of Posting of EL Pupil and Parent/Guardian Rights

By the deadline of August 1, 2024, all Clark County School District (CCSD) public and charter schools that enroll ELs are required to post a copy of the rights described in AB 195 on their school websites in as many languages as possible, reflective of their student population. Available translations are provided on the [English Language Learner Division \(ELLD\) website](#).

Principals must verify that the rights have been posted to their website by submitting a link to their webpage via the [Assembly Bill 195 2024–2025 Verification of Posting of English Learner Pupil and Parent/Guardian Rights Form](#).

Spring Required Data Reporting: EL Athletics and Extracurricular Activities Participation

All secondary school sites must report data for EL participation in athletics and extracurricular activities using the [Assembly Bill 195 2024–2025 Athletics and Extracurricular Activities Participation Form](#) no later than Thursday, May 1, 2025. Principals should work with athletic and activity directors at each secondary school to provide the number of ELs by grade level who participated in one or more of the following sports or extracurricular activities during the 2024–2025 school year. If an EL student participated in more than one sport or extracurricular activity, the student should be counted only once. Requests for the [Assembly Bill 195 2024–2025 Athletics and Extracurricular Activities Participation Form](#) will be sent in March 2025.
