Step 1) Generating Research Questions

Create questions to guide your research using the stems below. While you research, focus on answering these questions.

Your Global Issue:	gun control
Background information	what violations of gun control are occurring
Impact/Effect	how is gun control impacted by this problem
Prevention	what else can we do to eliminate gun control
Other	pros and cons of gun control

Step 2) Creating Search Terms

Brainstorm a minimum of six search terms related to your topic. Use these to begin your search.

gun control	gun rights	gun laws
school shooting	crimes	violations

- What are the causes? The cause for gun control is that democrats don't like guns and want them to be stopped being made and sold, because of all of the school shootings.
- What are the effects? The effect of guns being not being made anymore is that there will be a lot of people making their own guns and people do that now so there is no point of not making guns. Also if that happens there will be a lot more crazy people out there and they will get very mad and do lots of bad things about it and another thing is that inexperienced people will start make their own ammunition and that could be bad if they did something wrong the bullet could go off and kill that person.
- How can it be prevented? it could it be prevented by people stop freaking out about guns and they are for hunting porpoises and they are for our safety at home a and when we need it.

What do you want to know about this issue? I want to know why people don't like guns and why they are so bad. If you don't like guns don't get one and
