

ONT output across time

By Simon Grimm

2025-06-20

See below for copy-pasted graphs of sequencing output across time for each sequencing run.

NAO-ONT-20250120

^ CUMULATIVE OUTPUT

The cumulative output shows the total amount of bases or reads sequenced over time by your device.

Bases

Legend

— Estimated

Predicted total number of bases, prior to basecalling

Reads

Legend

— Total

Total number of reads, including passed, failed and skipped.

NAO-ONT-20250127

Bases

Legend

Estimated

Predicted total number of bases, prior to basecalling

Reads

Legend

Total

Total number of reads, including passed, failed and skipped.

Bases

Legend

Estimated

Predicted total number
of bases, prior to
basecalling

Reads

Legend

Total

Total number of reads,
including passed, failed
and skipped.

Bases

Legend

Estimated

Predicted total number of bases, prior to basecalling

Reads

Legend

Total

Total number of reads, including passed, failed and skipped.

NAO-ONT-20250313

Bases

Legend

Estimated

Predicted total number of bases, prior to basecalling

Reads

Legend

Total

Total number of reads, including passed, failed and skipped.

NAO-ONT-20250327

Legend

— Estimated

Predicted total number
of bases, prior to
basecalling

Reads

Legend

— Total

Total number of reads,
including passed, failed
and skipped.

Bases

Legend

- Estimated

Predicted total number of bases, prior to basecalling
- Passed

Bases equal to or above the quality score threshold.
- Failed

Bases below the quality score threshold.

Reads

Legend

- Total

Total number of reads, including passed, failed and skipped.
- Passed

Reads equal to or above the quality score threshold.
- Failed

Reads below the quality score threshold.
- Skipped

Reads that will not be basecalled. Post run basecalling is possible.
