

I got Covid from my student last year and missed 5 weeks of work! This year, they will be unmasked again (kindergarten) and I want them to have their own materials to stop the germ spreading!

My list:

25 boxes of crayons

50 pencils

25 erasers (we cut them in half so they last longer)

50 whiteboard markers (these run out fast because we practice writing so much!!)

10 boxes of markers-we share these and wipe them down because they're expensive!

25 glue sticks-we will share these because we don't use them all the time.

My school will give us about \$150 so I will use that for paint, individual play doh, construction paper, chart paper and watercolour paper and newsprint.

Thank you!!
