The following includes a **representative** cross-section of quotes, memes, posters (opinions) & news+ that are usually politically spun, censored, mischaracterized or otherwise silenced on FAKE Social, Mainstream Media, by Madison Ave, infiltrated corrupt Academia, NGOs, Big Publishing, Big Banking, Monopolistic Multinationals, bought and paid for Government, and/or the “Disinfotainment” establishment, all pushing for a Globalist/One World Govt. and/or the hegemonic tyranny of Talmudic Marxist (theocratic/ideological) dictatorship. This increasingly also shows how Alternative Media is evolving in terms of remedial truth driven populist and free speech content.

"What's Behind the 'Antisemitism' Epithet"

(newest first) latest update 12/21/22

... is a representative cross-section of mostly uncensored "Antisemitic" Alternative Media submissions regarding Jews, Jewish influence, Zionism, Judea, or Greater & Lesser Israel. Up until recently, there was a Facebook group by the same title that has repeatedly been censored, erased, and blocked by Facebook. Apparently even an open summation of "Antisemitism" examples as found even on FB and other FAKE Social Media platforms too are substantially censored and otherwise impermissible across the length and width of the greater FAKE Media News, Big Tech and 'Disinfotainment' establishment. Therefore this section was created because there clearly has been a major uptick in "Antisemitism" submissions in the last year and more that we should all be aware of.

How very liberal of the EU/WEF sychophants...

If companies like Twitter fail to comply with the DSA by February of 2024, the EU will be able to impose fines of up to six per cent of their global revenue and even possibly ban the platform altogether, a threat that they have already made against Twitter following Musk's takeover.

While the EU reacted with outrage over the temporary suspensions of establishment media journalists, this was not the case following the permanent ban of Donald Trump.

Days after Twitter took the unprecedented action of banning the sitting president of the United States — a move that came despite Twitter internally acknowledging that his posts did not violate their terms of service — European Commissioner for Internal Market Thierry Breton said that Twitter and other tech companies that banned Trump “have recognised their responsibility, duty and means to prevent the spread of illegal viral content”.

Mr Breton, who was the leading force behind passing the Digital Services Act, has been at the forefront of issuing demands to Elon Musk since the takeover to continue to police hate speech and disinformation on the platform, saying that: “In Europe, the bird will fly by our rules.”

And so it was that very recently we heard from everyone's favorite 'Commie Pope,' Pope Francis, who had a rather odd Christmas message for Christians this year. You see, it was the 'Commie Pope' who urged Christians to spend less on Christmas this year and to send the savings to the people of Ukraine.

Now I don't know about anyone else, but I feel confident in saying that I've already sent enough money to the people of Ukraine courtesy of Joey B's continuing money-laundering scheme. What money I have that has not been spent because of higher costs for food and gas, also courtesy of Joey B, will be spent on providing those I love with the best Christmas possible. | Posted by From the Front Porch on December 16, 2022

FLU - NASAL SPRAY FOR KIDS

Fluenz Tetra nasal spray is a live attenuated virus that is being 'rolled out' in schools as we speak. The spray is a genetically modified quadrivalent 'vaccine' that contains 4 strains of influenza. The spray has engineered recombinant and reassortant capacity.

The spray, however, is described by the manufacturer - Astra Zeneca) as a prophylaxis rather than a vaccine.

Although, the vaccine recipients should be informed that Fluenz Tetra is an attenuated live virus vaccine and has the potential for transmission to immunocompromised contacts.

Likewise, the product contains gentamicin as an antibiotic (of sorts) to largely mitigate the effects of possible bacterial consequences. Bacterium such as staphylococcus and streptococcal infection would be 2 such possible infections. It has also been suggested that due to the delivery method, respiratory conditions (like pneumonia) could be a problem for some.

Furthermore, the vaccines have been propagated in fertilised hens' eggs. The type most commonly used to produce normal vaccines. However, that said, they were produced in VERO cells using reverse genetic technology. Therefore, the product contains genetically modified organisms (GMOs) of type unknown.

The nasal reassortant influenza virus (live attenuated) of the following four strains are as follows:

A/Victoria/2570/2019 (H1N1)pdm09 - like strain. A/Victoria/1/2020, MEDI 340505). 107.0±0.5 FFU

A/Darwin/9/2021 (H3N2) like strain.

(A/Norway/16606/2021, MEDI 355293). 107.0±0.5 FFU

B/Austria/1359417/2021 - like strain.

(B/Austria/1359417/2021, MEDI 355292). 107.0±0.5 FFU

It has been strongly suggested that Staph and Strep infections have been associated with the rolling programme of nasal vaccination. The manufacturer recommends caution around the immunosuppressed and that viral shedding as well as community infection are likely. This is the same with most (if not all) vaccines.

As there are a large number of adults that are experiencing health related matters that have been linked to ongoing 'vaccine programs' it is reasonable to assume therefore, that there could be cross-contamination issues throughout the winter period.

Teachers are exempt from the quadrivalent programme for reasons unknown. As they are clearly in the 'front line', it seems odd that sitting amongst a group of 30 'superspreaders', that they haven't been invited to take part in the programme. That said, adult studies in the US have shown a poor efficacy with a similar quadrivalent product.

Six children have died with Strep A bacterial infection

Group A streptococcus, or Strep A, can cause scarlet fever, throat infections and, in very rare cases, invasive disease.

Texas Sues Facebook for Collecting Facial Recognition Data Without Consent 🗣️

At MeWe, Your Face is Your Business! 🤝

Hey Everyone,

Today, Texas Attorney General Ken Paxton sued Facebook for *"illegally collecting biometric data on users without their consent."* 🗣️

Texas is now *"seeking financial damages and an end to any unauthorized use of Texans' biometric data."* Hats off to Texas for standing up against Facebook's egregious violations! 🎩

Facial recognition is a terribly invasive technology and a major privacy risk. You can change a password if it becomes compromised — you can't change your face. ⚠️

MeWe has never used Facial Recognition, and never will. MeWe's Privacy Bill of Rights guarantees this and states emphatically *"Your face is your business."* That's what the MeWe 2-finger salute across the eyes is all about - it blocks facial recognition! 🤝

No Ads, No Targeting, No Facial Recognition, NO BS! 🎯

GOP establishment leader Kevin McCarthy voted to remove historical monuments from the U.S. Capitol Building, siding with BLM Democrats against 120 Republicans and America's history.

Kevin McCarthy voted "YEA" on H.R. 3005 when the Democrat legislation came to the House floor in 2021, as historical monuments had been coming down all over the country on a regular basis for roughly a full year, both by the hands of left-wing rioters and left-wing politicians.

Under the legislation, the Joint Committee on the Library was directed to remove all statues and busts of historical figures associated with the Confederacy from the US Capitol Building, as well as those depicting Vice President John C. Calhoun, late 1800s Arkansas Governor James P. Clarke, and early 1900s North Carolina Governor Charles B. Aycock.

The religion of "peace" love and unicorn farts of "integration." And you are a retarded if you are confused about the increase in rapes and murders of White women in Europe, not to mention North America..

Morningstar News Deborah Samuel, a 200-level student at Shehu Shagari College of Education in Sokoto, the capital of Sokoto state, was beaten, stoned to death and her body

set on fire, area residents said; a video showing the attack reportedly appeared on social media.

The Christian girl had apparently challenged a group of Muslim students spreading Islamic propaganda, thereby rousing their ire in a nation where Christians are being purged in a genocide (and where just two days ago 29 other Christians were hacked to death by Muslims).

“Deborah Samuel was complaining in a class WhatsApp group chat against how they discriminate against Christians in the school in areas of assignments and test in favor of the Muslims,” Pastor Azzaman told Morning Star News. “This is what they used as a yardstick to say she insulted Muhammad. She didn’t insult prophet Muhammad, but it was discovered that she turned down a Muslim proposal to date her. That led to him accusing her of insulting prophet Muhammad.”

Local media reported that she said in the WhatsApp chat group that she had passed exams thanks to Christ, and when she was pressured to retract the statement and apologize, she declined. Area residents reported that a Muslim mob dragged the Christian student from her hostel in the morning, stoned her to death and burned her corpse.

what happens in the surface is just the tip of the iceberg of everything involved. kennedy, and team, was opposition to the globalists. kennedy was proof the opposition to the globalists is real and significant. trump also seems to be real opposition to the globalists. trump is today's kennedy as figure head of the anti-globalist team. the anti-globalists are better situated today than during kennedy's time. the brics have an alternative banking system, and there are stories of another quantum alternative. there are many other

anti-globalist political leaders around the world. what the system tells the public is the bs the system wants the public to believe. the truth is often very different.

how much control of which things do the globalist side and anti-globalist side have today? the globalists are all in fighting for genocide and slavery or the death penalty. the sentient aware anti-globalists are fighting for freedom, prosperity, and justice for capital criminals. the 95% would still rather die than think.

the globalist west can't even defend a core part of their establishment in ukraine, and have lost their new star in kazakhstan. the globalist currencies are dying as planned. the globalists are losing the narrative control. the globalists are losing political, and judicial capture. the globalist woke is going broke.

do the globalists really have enough control of enough to carry out their threats? or will the globalist counter offensive be as impotent as the ukraine counter offensive was? the ukraine war is a proxy for the entire world civil war of the globalists vs the anti-globalists. after the ground freezes in ukraine, the red wave will remove political control from the globalists in the usa. everything will be set up for the anti-globalist counter attack, even bigger than the initial anti-globalist attack was. and the globalists now control far less and have far fewer resources to use than before.

time will tell which talk has things backing it up, and which is just blustering. ukraine is a good indicator. how goes ukraine is how goes the entire world wide civil, unconventional war against the globalists.

Why do the people who built what you see on the left need to be culturally enriched by the people who “built” what you see on the right? Can someone please explain this to me, because I need to understand.

Americans are growing tired of our ancestors being compared to the migrants of today. Settling in an undeveloped land and building a civilization is not comparable to moving to a post-industrial nation and signing up for welfare.

OBJECTIVE VS SUBJECTIVE (what is real vs what is desired/feared/arbitrary)

To objectivists, values are all material/spiritual things/experiences that are essential to each individuals Health, Life, and Happiness. Life is the objective standard of value. Rights make might. Persuasion accomplished by speech and reasoning and a prospect for mutually beneficial trade. The ambition to conquer and control mother nature to our own advantages and long term happiness and well being.

To subjectivists (values are arbitrary whims of tribal “deer leederz” whether secular or supernatural, the difference between human rights and mass slaughter is merely a difference

of political opinion. Might makes right. Persuasion using physical force and intimidation. The venal tribal cowardice of conquering and controlling other men, women, and children.

Duke University Refuses Kidney Transplant To Dying Girl For Refusing COVID Vaccine

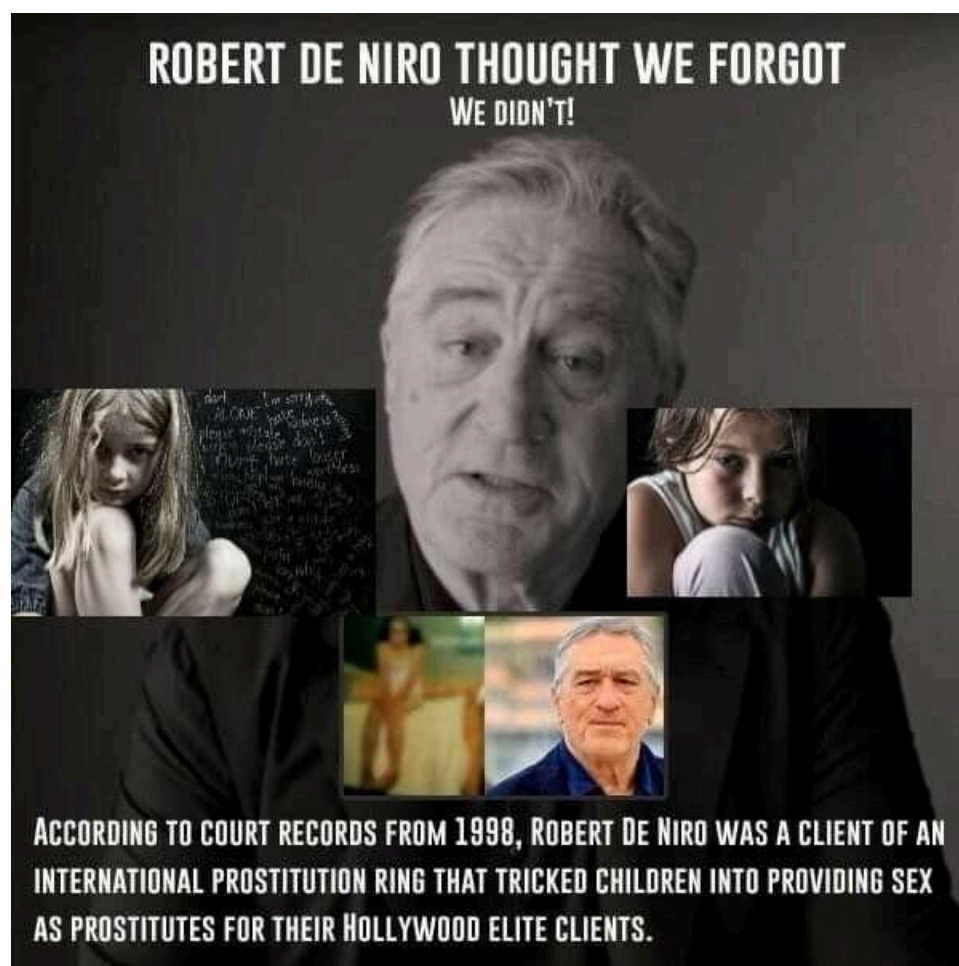

by KARI DONOVAN

— December 5, 2022

Two Christian parents, Chrissy and Lee Hicks, both North Carolina Army veterans, have 11 children, including a 14-year-old girl, Yulia, who is a rescued orphan from Ukraine. Yulia has been shuffled around the US and transferred between caretakers several times and has been finally adopted by the Hicks, who feel a strong determination and sense of duty to give their daughter some stability and justice in life. Despite coming this far, Yulia is now being denied a critical organ transplant due to her vaccination status.

I don't support censorship. Or hate speech.

As the (outgoing) CEO of Twitter, how about you? Why not do more to stop slurs against Black people, LGBTQ+ people, Jewish people, and others? Do you commit to providing the public with actual answers and data, not just tweets?

Elon Musk ✓ @elonmusk · 21h

As (outgoing) Chair of House Intelligence, did you approve hidden state censorship in direct violation of the Constitution of the United States @RepAdamSchiff?

You are a disgrace to wave the flag of another country inside our Capitol.

If I was there I would have ripped up that Ukrainian flag the same way you ripped up Trumps speech.
